Dear Supporters

We thank you all for the interest and support over the past few months. Our goal is to expose this dishonest and fraudulent conduct of the motor industry fully, regardless of the consequences. The purpose of this letter is to assure you of our commitment and dedication, and to keep you abreast of our progress.

This behaviour has been prevalent in this particular industry for many years, and it is still being perpetuated on a daily basis, even though the book we have written has been brought under the attention of many manufactures and dealerships.

We have approached each and every government institution and regulatory body of the industry in an attempt to put a stop to this and to retrieve the losses suffered by yourselves and the public at large.

In addition we have engaged a team of legal experts who is assisting us with legal research and the formulation of our strategy. Subsequently the legal departments of two universities have also declared their interest and are assisting us in our cause. During the consultations to date we have been assured that our research was thorough and that the allegations made in our book are legally correct.

What we have learnt in the process is that this quest will have enormous repercussions for the industry, and that the industry will oppose us at all costs. For this reason we have to ensure that our approach and strategies are well constructed and that we have the support of all the regulatory bodies affecting this industry. We are genuinely appreciative of their support and guidance.

We therefore request your patience and ongoing support at this stage. We have made enormous progress to date and we assure you that we will pursue this collective mission with all the effort required.

We can only act on behalf of the individuals who have referred their complaints and claims to us, thereby granting us the mandate to act on their behalf. Please spread the word and encourage others to join you in supporting us.

Without you and your support our mission will have no foundation.

Yours' truly

John and Crystal
